# TASTING NOTES

---

Clos d'Agon white is a straw yellow wine with a certain intensity and greenish tones that remains in time, although in very old vintages the color tends towards the bright gold.

The nose is extremely complex and changeable. The aromas evolve in the glass according to their volatility and you can appreciate these variations over a long period of time.

In the first years after its bottling, the aromas are fresher, emphasizing white fruits, citrus fruits, apricots, anise and pastry, and the typical of the Viognier (tropicality, magnolias).

Over the years, these aromas evolve into honeys, ripe fruit, dried apricots, withered white flowers, Chinese ink or incense. The aromas provided by the barrel are also present, but in a subtle and balanced way.

It has a powerful entrance and fills the mouth with its volume, creaminess, structure and persistence, which, together with its great freshness and the aromas retronasal spices, form a balanced and round block. The Viognier brings its bitter, but elegant, characteristic end.

The 2018 vintage was extremely humid during the vegetative period and suitably dry in maturation, coming from three very dry years in which the plant had suffered a lot.

With this the grapes reached optimal volumes, with a very good natural acidity.

All this results in fine, elegant and fresh wines with a great potential for aging and evolution, endowing white Clos d'Agon 2018 with a long life.

## **Wine Conservation:**

For optimum evolution of the wine in the bottle, it is advisable to keep in place at a more or less constant temperature between 9 and 17 °C, with relative humidity of 65-80%, protected from light and, if possible, out of its box and horizontally if it is not going to consume in a short space of time.

## **Consumption Tips:**

Suitable to be tasted from the moment it is bottled. Its optimum of consumption begins from the second year after its bottling. However, the characteristics of alcoholic strength and acidity and the work on its lees, allow white Clos d'Agon to last for a great number of years, provided that the bottle has been kept in proper storage conditions.
